

LOKMANGAL FOUNDATION

WEBSITE DEVELOPMENT — REQUIREMENTS & TASK TRACKER

INDEX / TASK TRACKER

	Task / Section	Status
	Website Reference & Overall Layout	
	Typography & Font	
	Colour Palette & Design System	
	Navigation Bar	
	Language Selection	
	Social Media Icons	
	Donate Button	
	Image / Hero Section	
	Project Sections & “अधिक वाचा”	

	Statistics / Beneficiary Section	
	“फाऊंडेशन बदल” Section	
	“कार्यक्रम” Section	
	Responsive Design	
	Final UI/UX & Functionality Check	

01. WEBSITE REFERENCE & OVERALL LAYOUT

Reference Website

Use the following website as the primary **layout and design inspiration**:

<https://sanjeevan.org.in/hi>

Take inspiration from the overall structure, spacing, section arrangement and visual hierarchy.

Do **not** copy the website directly. The final design should maintain a distinct **Lokmangal Foundation identity**.

The overall website should look:

- Modern
- Clean
- Professional

- Trustworthy
- People-centric
- Easy to navigate

Maintain proper spacing and visual hierarchy between different sections.

02. TYPOGRAPHY & FONT

Marathi Font

Use **Tiro Devanagari Marathi** as the primary Marathi font.

Apply the font consistently across:

- Headings
- Paragraphs
- Navigation
- Buttons
- Cards
- Statistics
- Footer
- Other Marathi content

Maintain proper font sizing, weight, line height and spacing so Marathi content remains easy to read on both desktop and mobile.

03. COLOUR PALETTE & DESIGN

SYSTEM

Use the following colour palette throughout the website.

Element	Hex Code	Usage
Brand Green — Primary	#14432A	Headings, logo text, navigation, footer
Brand Green — Medium	#1F6B3D	Secondary buttons, icons/accent elements
Brand Orange — Accent	#EA8B22	Primary CTA buttons and highlights
Orange Button Text	#4A2F0C	Text on orange buttons
Light Orange Tint	#FDEEDC	Background for orange-themed icon circles
Orange Icon	#9A5A0F	Icons inside orange circles
Light Green Tint	#E3F0E6	Background for green-themed icon circles
Green Icon	#14432A	Icons inside green circles
Page Background	#FAF8F3	Main website background
Card Background	#FFFFFF	Project/content cards
Main Text	#2B2B2B	Main body text
Secondary Text	#5F5E5A	Descriptions/subtext
Footer Text	#E3F0E6	Main footer text

Footer Muted Text	#A8D0B4	Copyright/secondary footer text
-------------------	---------	---------------------------------

Implementation

Use **#14432A deep green** as the primary brand colour.

Use **#EA8B22 orange** mainly for important CTA buttons and highlights.

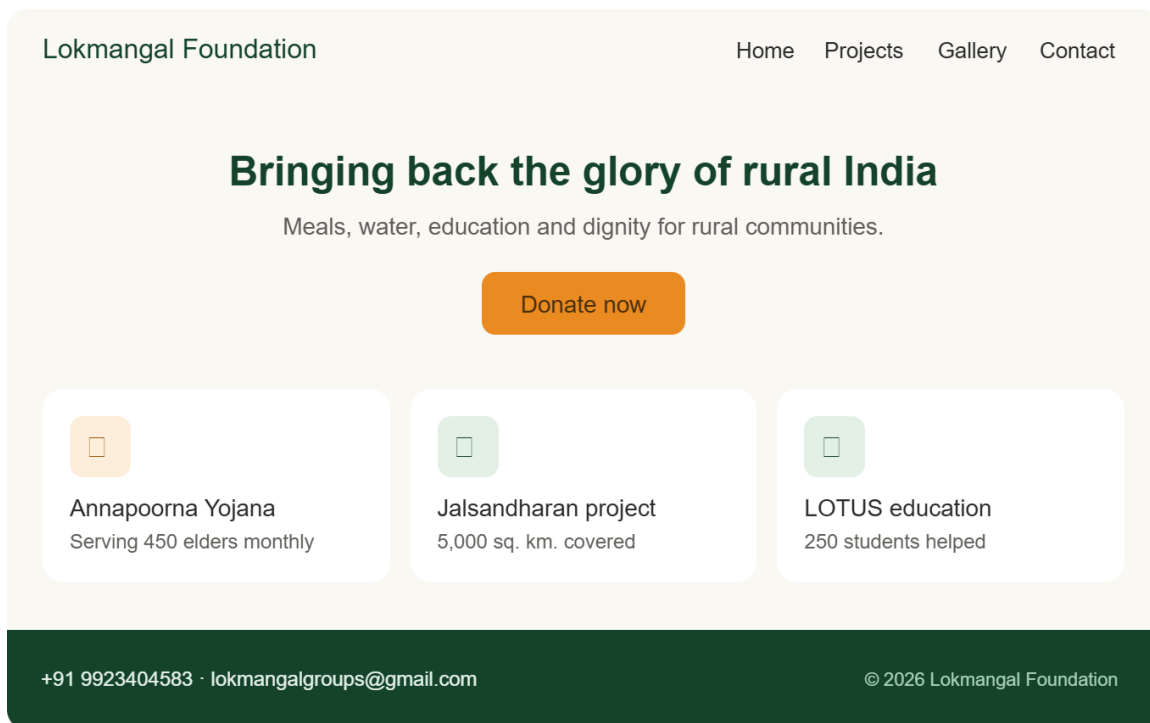

Use **#FAF8F3 warm cream** as the main page background instead of pure white.

Use #FFFFFF for cards/content boxes.

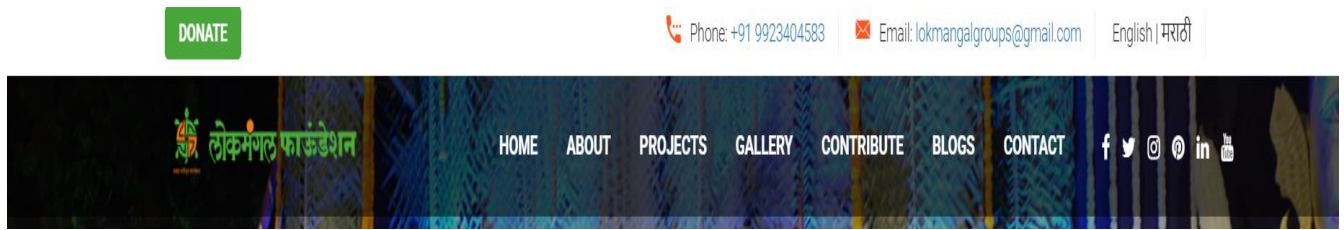

Maintain sufficient contrast between text and backgrounds.

Save all colours as **CSS variables** instead of repeatedly entering HEX codes throughout the code.

EX.-

04. NAVIGATION BAR

The navigation bar should have a **separate background** from the main page background.

The navigation should have enough visual contrast so that it is clearly visible.

Maintain proper spacing between:

- Logo
- Navigation items
- Language selector
- Other navigation elements

Ensure the navigation is clean and uncluttered.

Navigation should remain user-friendly on both desktop and mobile.

05. LANGUAGE SELECTION

Add a **Language Dropdown** in the navigation.

Languages:

- English
- मराठी

The user should be able to switch between English and Marathi.

The selected language should be clearly visible.

Ensure the dropdown works properly on desktop and mobile.

06. SOCIAL MEDIA ICONS

Replace the old **Twitter icon** with the new **X icon**.

Remove the **Pinterest icon completely**.

Keep only the required/active social media platforms.

Ensure all social media icons are properly aligned and clickable.

07. DONATE BUTTON

Remove the Donate button from the navigation menu.

The Donate CTA should still remain visible as a **separate button on the right side**.

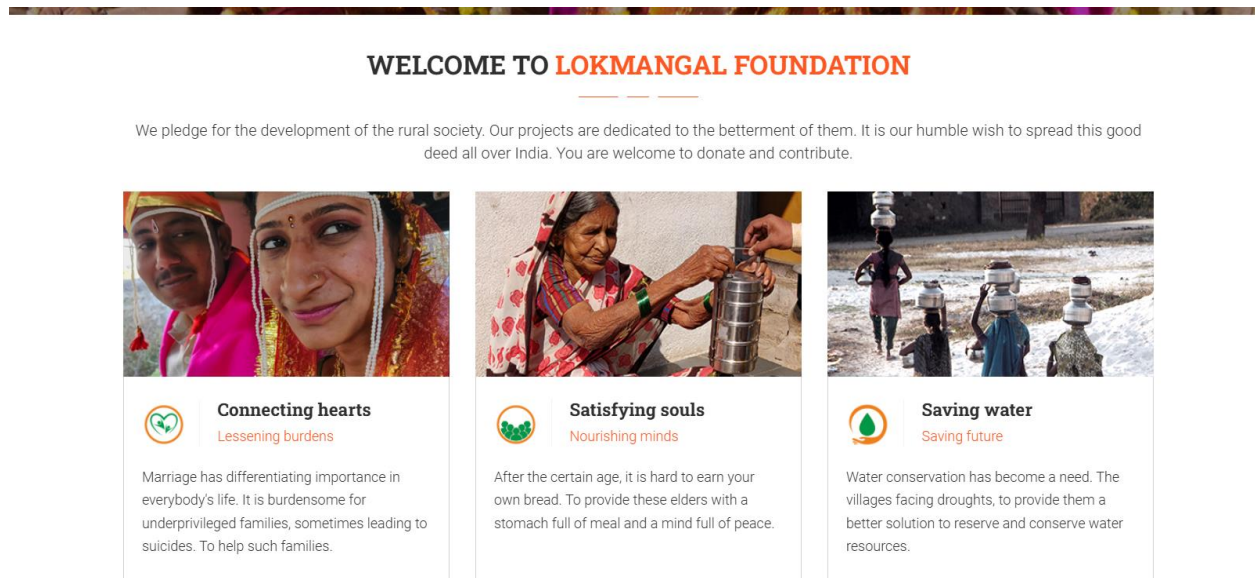

The button should be visually prominent without disturbing the navigation.

Use the primary accent colour:

Orange — #EA8B22

Ensure the Donate button is properly clickable and linked to the correct donation page.

08. IMAGE / HERO SECTION

Improve the existing photo presentation.

The photo should have a **proper background/layout treatment** rather than appearing as a simple standalone image.

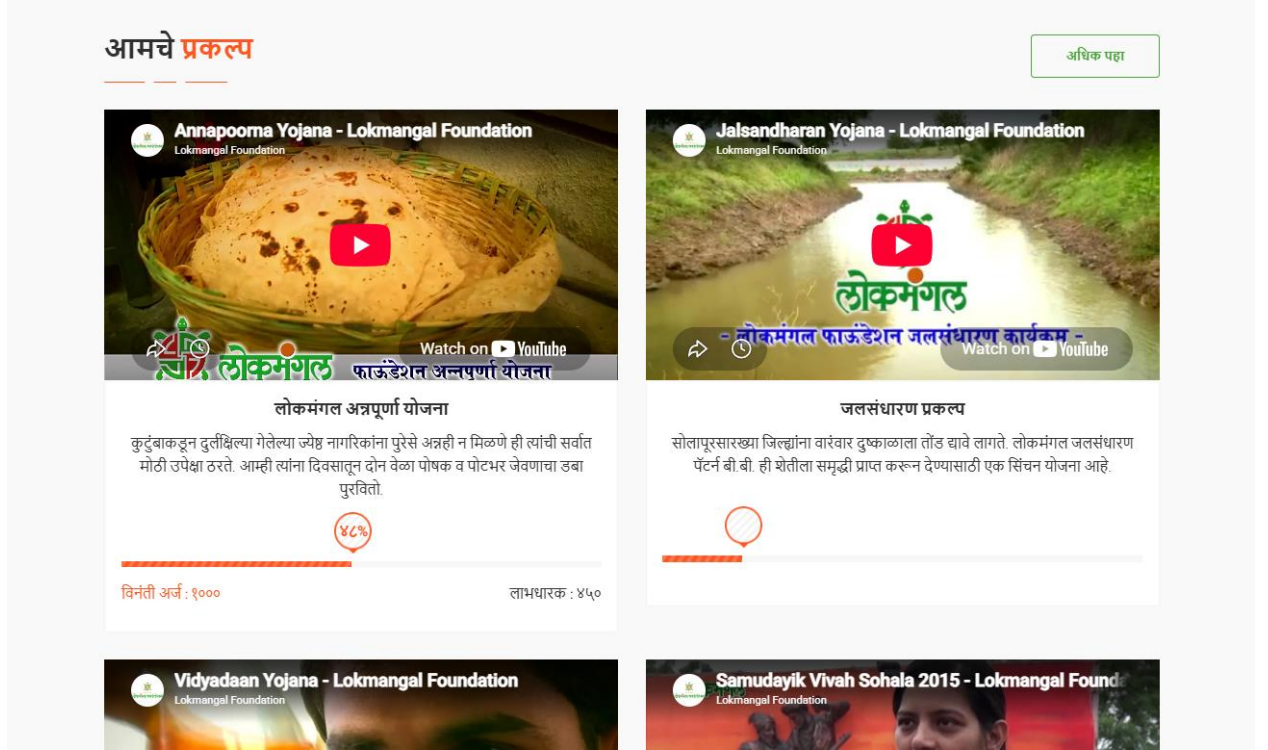

Create a visually balanced composition around the image.

Ensure the image works well with the overall green + orange + cream colour palette.

Maintain proper image proportions and avoid unnecessary cropping.

Ensure the image section is responsive on mobile devices.

9. PROJECT SECTIONS & “अधिक वाचा”

The project sections should have a clear CTA for users who want to learn more.

Add an “अधिक वाचा” button to the relevant project cards/sections.

The button should redirect users to the **respective detailed project page**.

Specific requirement:

1. For **सामुदायिक विवाह**, the “अधिक वाचा” button should redirect to the **सामुदायिक विवाह page**.
2. Implement the same functionality for the **other two relevant project sections**.
3. Ensure every “अधिक वाचा” button has the correct URL/page mapping.
4. Do not use the same link for all projects unless they are intentionally meant to redirect to the same page.

10. STATISTICS / BENEFICIARY SECTION

Layout Changes

1. Reduce the overall size of the statistics/beneficiary section.
2. The section should not occupy excessive vertical space.
3. Add a **proper background/layout treatment** to make the section visually stronger.
4. Maintain a clean card/grid structure for the numbers.
5. Numbers should be visually prominent while the labels remain easy to read.

Remove

Remove “विनंती अर्ज” from this section.

Update Numbers

Update the statistics as follows:

अन्नपूर्णा लाभधारक : ५५०

लोटस लाभधारक : २२५

विवाहित जोडपे : ३२२१

Ensure the updated numbers are reflected everywhere this information appears on the website.

Keep the formatting consistent across all statistics.

11. “फाउंडेशन बद्दल” SECTION

लोकमंगल फाऊंडेशन विषयी

आमचे कार्य

लोकमंगल फाऊंडेशन ग्रामीण समाजाच्या उन्नतीसाठी काम करते. आम्ही त्यांचे जीवन सुधारण्याचा प्रयत्न करतो. सध्या आम्ही चार प्रकल्पांवर काम करीत आहोत.

या प्रकल्पांच्या साहाय्याने आम्ही प्रयत्न करत आहोत

- ✓ निराधार ज्येश्ठांना सकस आणि पुरेसे अन्न देण्यासाठी
- ✓ पाण्याच्या कमतरतेची समस्या दूर करण्यासाठी
- ✓ प्रत्येक गरजू विद्यार्थ्यास शिक्षण देण्यासाठी
- ✓ विवाहावरील खर्चाचा बोजा कमी करण्यासाठी

स्तंभ

- ✓ लोकमंगल अन्नपूर्णा योजना
- ✓ जलसंधारण प्रकल्प
- ✓ विद्यादान योजना
- ✓ सामुदायिक विवाह सोहळा

व्हिजन आणि मिशन

- ✓ ग्रामीण समाजाचे जीवनमान उंचावणे.
- ✓ संपूर्ण देश अनुसरण करू शकेल अशी मॉडेल विकसित करणे.
- ✓ ग्रामीण समाजाच्या विकासासाठी तत्पर राहणे.

1. There is already an existing “फाऊंडेशन बद्दल” section.
2. Do **not create another separate** “फाऊंडेशन बद्दल” section.
3. Add the required information/content within the **existing section**.
4. Maintain the existing section's position and improve its presentation if required.
5. Ensure there is no duplicate content or duplicate section.

12. “कार्यक्रम” SECTION

New Section Required

Add “कार्यक्रम” section.

Position

The section should be placed **immediately after** “आमचे प्रकल्प”.

Order should be:

आमचे प्रकल्प → ?????????s

13. RESPONSIVE DESIGN

1. Check the complete website on desktop.
2. Check the complete website on tablet.
3. Check the complete website on mobile.

Ensure:

- Navigation does not break
- Language dropdown works properly
- Buttons remain accessible
- Images scale correctly
- Text does not overflow
- Cards stack properly
- Statistics remain readable
- Spacing remains consistent
- No horizontal scrolling occurs

Ensure Marathi typography remains properly aligned and readable on smaller screens.
